### THAI OPERATES TO EUROPE AS NORMAL

MR. CHARAMPORN JOTIKASTHIRA, THAI President, said that the European Union's Aviation Safety Committee (ASC) meeting on 25 November 2015 to review the Air Safety List, did not place carriers from Thailand to the list. In the European Commission press release dated 10 December 2015, "No air carriers from Thailand were added to the Air Safety List at this time." (ref. [http://europa.eu/rapid/press-release\\_IP-15-6284\\_en.htm](http://europa.eu/rapid/press-release_IP-15-6284_en.htm))

As such, THAI will continue to operate regularly-scheduled flights to Europe, which includes these 11 cities in 9 countries: London, Copenhagen, Frankfurt, Brussels, Munich, Oslo, Paris, Stockholm, Zurich, Milan, and Rome. Passengers can find flight information at [www.thaiairways.com](http://www.thaiairways.com). THAI continues to operate under high safety standards of the European Aviation Safety Agency (EASA).

THAI is prepared to support and cooperate with the CMI Aviation Administration of Thailand (CAAT) in the recertification of air carriers, and supporting other Thai carriers to raise safety standards in making Thailand's aviation industry robust.

### EVA INTRODUCES BOEING 787 DREAMLINERS

EVA AIR signed agreements for up to 24 Boeing 787 Dreamliners and two additional Boeing 777-300ERs in a signing ceremony with Boeing and GE officials in Taipei. All of EVA's new aircraft will be powered by GE engines. EVA Chairman K.W. Chang, Boeing Commercial Airplanes President and CEO Ray Conner, and GE Aviation Vice President and General Manager in charge of Global Sales and Marketing, Chaker Chahrouh signed the document.

Boeing uses composite material such as carbon fiber as the primary component in airframe construction of its Boeing 787 Dreamliners. This airliner is Boeing's most fuel-efficient. A key feature of the aircraft's design is light-weight construction. Its weight is 80% composite, primarily in the fuselage, wings, tail, doors and interior. Boeing's expanded use of composites greatly reduces maintenance demand caused by metal fatigue in aluminum alloy airplane structures.

"EVA participated in development of the Boeing 777-300ER and became a launch customer in 2005," EVA President Cheng said in his remarks. "From that first delivery through today, we operate 22 of these high-performance long-haul aircraft. We believe the future of the airline industry will be built on fuel efficiency and cabin comfort. The new Boeing 787-10 Dreamliner's high fuel efficiency and long-range flying capabilities meets these requirements and our operational needs. These planes will support our growth well into the future."

"We are honored to welcome EVA Air as Boeing's newest member of the 787-10 Dreamliner launch customer group," said Boeing Commercial Airplanes President and CEO Conner. "EVA Air has been a valued Boeing customer for the past few decades and we are honored that they continue to introduce new Boeing widebody airplanes into their growing world-class fleet. We look forward to working with EVA Air to further extend our successful long-term partnership."

The aircraft is also equipped with the latest GENx engine, providing as much as a 20% reduction in fuel burn and CO2 emissions compared to older aircraft models. The high efficiency and range capability equips EVA to optimize its fleet and network performance.

"This order demonstrates EVA Air's confidence in the outstanding performance and reliability of GE's wide-body jet engines," said Chaker Chahrouh, vice president and general manager of Global Sales and Marketing at GE Aviation. "The GENx-1B engine is the best-selling engine on the Boeing 787 Dreamliner. The engine has accumulated more than two million flight hours and close to 400,000 cycles since entering service. GE Aviation is honored by the continued trust EVA Air has in our products and we look forward to playing an important role in the airline's continued expansion."

Other weight-reducing and environmentally conscious features include replacing incandescent bulbs with HID and LED lighting technologies so that the aircraft's 787 lights will last 10-to-20 times longer than their in-service counterparts.

The Boeing 787 Dreamliner significantly improves passenger comfort by introducing advanced interior features such as gaseous filtration systems and cabin air pressurization, enhancing inflight humidity levels and air quality. The increased use of composite construction in the 787 creates a cabin environment where higher internal cabin pressure can be maintained, reducing headaches and air sickness among passengers. Passengers on these aircraft will be able to enjoy flights that are more comfortable than ever.

The 28 new aircrafts are scheduled to be delivered from 2017, and all will be in EVA's hands by 2022. As the new aircraft are delivered, older models will be gradually replaced and more flight frequencies and destinations will be added to the airline's schedule. The new Boeing 787 Dreamliners will be deployed on medium-range and long-haul flights and used with the 777-300ERs to be the backbone of EVA's fleet.

## 50 BEST AIRPORTS IN THE WORLD: SUVARNABHUMI RANKS 47TH

**BANGKOK'S SUVARNABHUMI AIRPORT** is among the 50 best airports in the world. Suvarnabhumi was listed as 47th, one notch up from last year's ranking.

Singapore Changi Airport was again voted the world's best airport for the third year running in the annual SkyTrax World Airport Awards 2015 announced recently in Paris. South Korea's Incheon International Airport was named the No. 2 best airport for the third year running. Germany's Munich Airport retained its third rank, as did Hong Kong International as fourth rank in 2014. Tokyo International (Haneda) climbed one notch to No 5 from 6 in 2014.

The result was based on more than 13 million surveys completed by 112 nationalities of airline customers between May 2014 and January 2015, and included 550 airports worldwide. The survey evaluates customer satisfaction across key performance indicators such as check-in, arrivals, transfers, and shopping facilities.

The Skytrax World Airport Awards are the most prestigious and coveted awards to recognize product and service quality across the world's airport industry. Also known as the Passenger's Choice Awards, it was launched by air transport advisory group SkyTrax since 1999.

## THAI AIRASIA X FLIGHTS ALLOWED INTO JAPAN UNTIL END OF JUNE

**THE QANTAS GROUP** has announced new services to its international and domestic network into Queensland, giving customers more direct travel options at home and overseas.

Internationally, Qantas will increase its upcoming Brisbane-Tokyo (Narita) service from four to seven return-flights a week. This change to the previously announced route, which starts in August, represents an increase in seats of 75 percent to over 4000 seats a week.

Domestically in Australia, more than 15,000 seats a year will be added to the Whitsunday Coast region as part of a dual brand revamp to Qantas and Jetstar's flying. From June 27, Qantas will introduce a twice-weekly return service between Melbourne and Hamilton Island – taking over the route from Jetstar. In turn, Jetstar will start operating a direct three-times weekly service between Melbourne and the Whitsunday Coast Airport (Proserpine) from June 25.

## ETIHAD WINS PRESTIGIOUS CRYSTAL CABIN AWARD

**ETIHAD AIRWAYS** has scooped the coveted 2015 Crystal Cabin Award in the 'Premium Class & VIP' category for its innovative Airbus A380 upper deck cabin designs and products during the annual Aircraft Interiors Expo held in Hamburg, Germany.

The Crystal Cabin Award is the only international award recognizing excellence in aircraft interior innovation. The international judging panel is made up of more than 20 academics, engineers, representatives of aircraft manufacturers and airlines, as well as journalists specializing in the field of aircraft interior design.

The award was presented jointly to Etihad Airways and the members of the Etihad Design Consortium (EDC) – a unique grouping of three leading brand and design agencies, who pooled their combined skills to deliver Etihad Airways' ambition of revolutionizing air travel by totally reimagining the flying experience.

## THAI AIRASIA EXPANDS TO CHINA

**BANGKOK --** Thai AirAsia operate flights connecting Pattaya's U-Tapao Airport to Nanning and Nanchang in South China aiming to boost tourism between the two destinations.

The route U-Tapao - Nanning launched on 25 September with four weekly flights on Monday, Wednesday, Friday, and Sunday. It is the first scheduled service to China from U-Tapao, which is around 30 km south of Pattaya.

Flights to Nanchang will start 26 September with three weekly flights on Tuesday, Thursday and Saturday. U-Tapao will be the airline's fifth hub after Don Mueang, Phuket, Chiang Mai and Krabi.

Airline CEO, Tassapon Bijleveld, said the new routes will open up travel opportunities for residents in east Thailand. "Tourism on the eastern seaboard and Pattaya is growing very rapidly and U-Tapao Airport can accommodate scheduled flights."

He added: "With plans to expand to other routes both domestic and international we assign two Airbus A320s to U-Tapao."

Nanning is an important economic city in South China where there are quick connections to Guilin. The city is connected to Guilin by high-speed train. The rail trip takes two and half hours.

Nanchang as a city is home to many of China's greatest sites such as Lushan Mountain and Wuyuan Village and the Star of Nanchang, the second largest Ferris wheel in the world.

## THE EVA AIR EXPERIENCE

*"WE WILL ALWAYS CONTINUE TO STRIVE TO IMPROVE OUR SERVICES TO PROVIDE AN UNFORGETTABLE AND COMFORTABLE FLYING EXPERIENCE FOR OUR PASSENGERS," SAYS EVA AIR-THAILAND REPRESENTATIVE CLARK YEH.*

In the last two years that he's been in the kingdom, Clark Yeh, Representative of EVA Air in Thailand, has nothing but a good impression of the country.

"Thailand seems to be getting better and better," says Clark, who first came to Thailand some 20 years ago. "And I had a fondness for the peace-loving Thai people, for their food, and for their general gracious attitude towards life – and I think I could not have asked for a better place of assignment." He was assigned to Bangkok on February 2013.

As Representative of EVA Air in Thailand, Clark is overall in-charge of everything, from passenger sales to cargo sales management, administration, airport operations, and more. Having been with the company for 25 years now--since he graduated from the university in Taiwan--he is obviously the right man for the job. And being in Bangkok, just feels right for him.

"Bangkok's increasing stature as an international airlines hub means it's becoming an even more competitive market," he says. "With many airlines flying to Bangkok more frequently, we have to work harder to make ourselves even more competitive."

## Bolstering Competitiveness

To bolster its competitiveness, EVA Air became a Star Alliance member in June 2013. This gives EVA Air passengers access to a vast network of nearly 1,321 airports in more than 193 countries and providing seamless global services. An added benefit is the geographical advantage as Taiwan steadily gains status as Asia-Pacific's transportation hub.

Clark also said they've been changing their strategies in the last two years. At the marketing level, for example, the airline has decided to do more advertisement this year and next so as to further increase its brand presence. Yeh explains: "We have created a lot of new frequencies to the U.S. and Europe so we need more market source. we need Thai people to know more about EVA Air."

The new strategy is also reflected in flight operations. Direct flights from Bangkok, for one, have increased. "Last year, we increased our weekly flights to North America from 45 to 55, and by the end of the year, we will be increasing them again to 61," Clark says. "And next year, more increased frequencies will follow." The airline flies direct from Bangkok to Vienna, Amsterdam, and London, and other destinations in North America via Taipei.

## Increased Frequencies

"We now have 14 flights a week to Europe," Clark adds. "We have 17 flights per week in the Bangkok-Taipei route and almost 66 flights to America. The best thing is you can now fly with EVA Air from Bangkok to Taipei, from Taipei direct to Los Angeles or Houston and then back to Taipei," he continues. The airlines network continues to expand, in keeping with its slogan: "Sharing the World, Flying Together."

Beyond the physical aspect of operations EVA Air also continues to focus on improved service. "To make flying more convenient," he says, "we have employed cabin crew who speak English and Thai. Thai passengers will be happy to know that EVA Air now has 160 Thai cabin crew, meaning they can speak the mother tongue when they fly with us."

But Thai passengers have always admired the airline anyway. Since EVA Air started flying to Bangkok in 1991, it has always been known for its core values such as safe, punctual flights; friendly professional services; and efficient, innovative operations.

## Innovative Spirit

And even before Clark came in as Representative, its innovative spirit has been very obvious. "We led the

### GULF AIR LAUNCHES DOUBLE MILES PROMOTION FOR AIRLINE'S NEWEST DESTINATIONS

Gulf Air, the national carrier of the Kingdom of Bahrain, announced the start of a "Double Miles Promotion" to coincide with the launch of its newest destinations, giving its frequent flyer program (FFP) members the opportunity to fly to Al Maktoum International Airport in Dubai, Thiruvananthapuram in India, or Mashhad in Iran and earn double miles.

Kavita Sharma AlJassim, Gulf Air's Senior Manager of Customer Experiences, commented on the promotion: "We constantly strive to make every facet of our FalconFlyers' travel experience more rewarding. This FFP promotion celebrates the launch of our newest destinations and

gives our members the opportunity to travel to them while earning even more miles."

Gulf Air will become the first full-service network carrier to fly into Al Maktoum International when it commenced a daily evening service on December 8, linking Bahrain to the new airport. Starting on the December 14, Bahrain's national carrier also operates four weekly flights to Iran's second most populous city, Mashhad, while flights to Trivandrum International Airport commenced on December 15 with five weekly flights.

Gulf Air's FalconFlyer programme, with its incentives and benefits for the airline's frequent flyers, has garnered positive feedback and been well embraced by Gulf Air passengers with growth across its different network countries. It offers members privileges and value added benefits such as bonus miles up to 250%, family membership and special privileges both on the ground and in the air. A host of generous benefits and incentives are available for all three categories of the program's cardholders. For instance, Gold, Silver and Blue members get two free economy tickets to the GCC and Middle East region when traveling once between Bahrain and Manila on Falcon Gold.

The double miles offer is valid for two months from the date of the destination launch and further information can be found by visiting the nearest Gulf Air Office, calling the Gulf Air World Wide Contact Centre on +973 173 737 37 or simply logging on to [www.gulfair.com](http://www.gulfair.com).

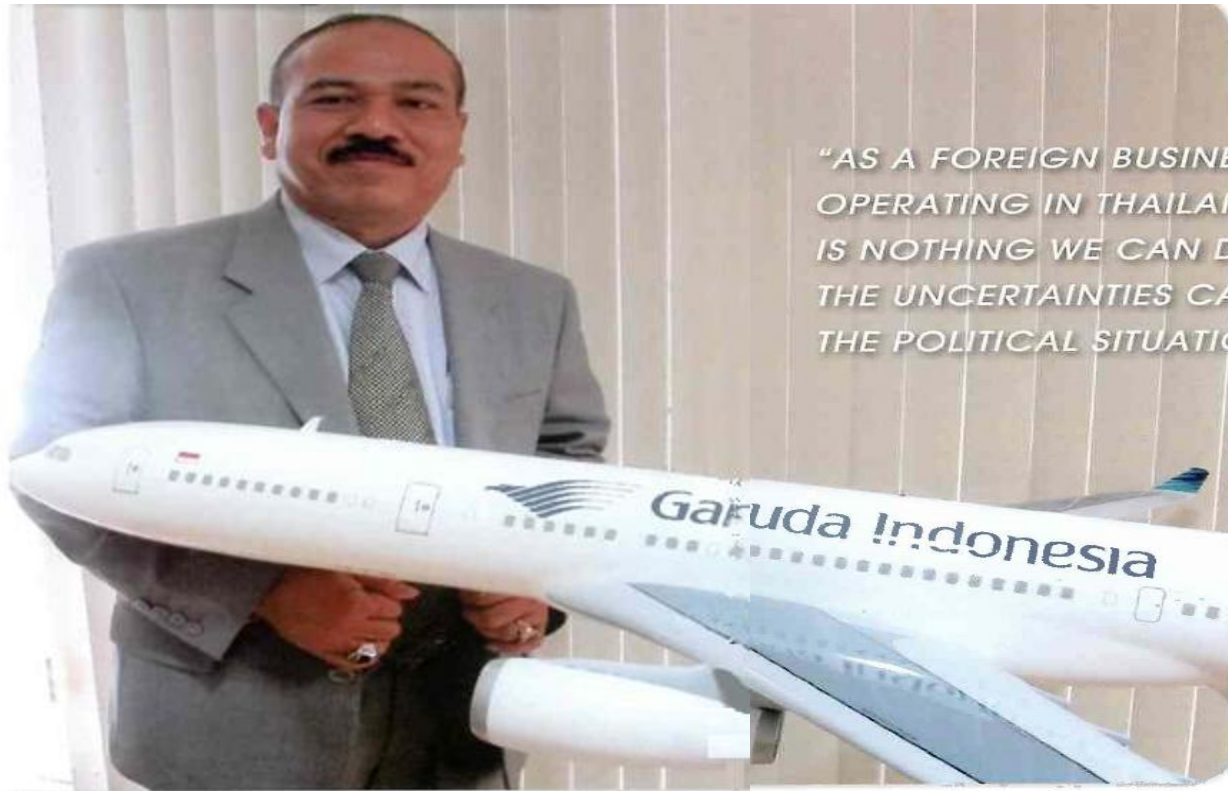

#### About Gulf Air

Gulf Air, the national carrier of the Kingdom of Bahrain, commenced operations in 1950, becoming one of the first commercial airlines established in the Middle East. Today, Gulf Air is a major international carrier serving 32 cities in 21 countries spanning three continents. The airline operates one of the largest networks in the Middle East, with double daily flights to over 10 regional capitals, from its hub at Bahrain International Airport. Gulf Air serves all its destinations with a combination wide and narrow body fleet totaling 26 modern aircraft. Renowned for its traditional Arabian hospitality, evidenced by the airline's signature family and business friendly products, Gulf Air is committed to being an industry leader and developing products and services that reflect the evolving needs and aspirations of its passengers.

Gulf Air connects Bahrain to the world and, as such, is a key national infrastructure asset, serving as a powerful driver for the economy and supporting the Kingdom's on-going economic growth.

Gulf Air was the Official Airline and Sponsor of the Gulf Air Bahrain Grand Prix 2013 and is the Official Airline and Sponsor of the Bahrain International Airshow 2014.

**P**reviously based at the head office in Jakarta, Sudiarto Sugito, Garuda Indonesia's general manager for Thailand, Myanmar, Laos, and Cambodia, moved to Bangkok 6 months ago to take up his new position at the height of the political protests. Not exactly the best of times to move here,

yet he remains excited by the challenges he faces in this market.

"I am focused on business travel between Bangkok and Jakarta," he says. "On this route we have an equal split between [the number of] Thai and Indonesian passengers travelling. No matter what happens, this sector of the market has no choice than to keep going despite the uncertainties caused by the political situation."

"My job is first to promote Indonesia as the destination," he says, "then the route network offered by Garuda Indonesia. We currently operate three round-trip flights daily between Jakarta and Bangkok, operating the Boeing 737-800 aircraft, which has business and economy classes on board. We had
